To Whom It May Concern

It my pleasure to provide a reference for Zak Wegweiser.  
From late 2014-present.

I have known Zak for the last three years. I became interested in developing applications for the iPhone and was looking for a teacher and mentor to help me. I was fortunate to have Zak offer to fulfil this role.

In the last three years Zak has taught me the technical programming skills needed to develop my own applications. He did this through teaching videos and emails. Zak showed great skills in mathematics, physics, programming and problem solving. He is a great teacher and adapted the material for my learning style. Zak has a subtle sense of humour that made the learning process enjoyable.

Zak is extremely dependable. He finished all lessons on time and they never deviated from the highest of quality. I know he had a busy schedule but he always did what was needed to get the projects done. He is a tireless worker. He gladly provided what I requested but often went beyond what was required.

I have known Zak to be innovative and creative. A lot of discussion was on game design. Zak was creative in solving design problems and gave frequent design suggestions for my projects. He provided new ideas and perspectives that I still use in my applications.

Personally, Zak is mature beyond his years. I've always been impressed with his intelligence and technical skills. More importantly he has always shown me kindness and patience. He has the qualities I hope to see one day in my own son.

For these reasons and many others it is easy for me to recommend Zak for this position. Please contact me if you wish to discuss anything in detail.

Sincerely,  
Dr. Dwayne Hinz D.M.D.
